HAM05D - SNAPSHOTS OF HAMBURG

STADSRONDLEIDING

This "Free and Hanseatic City" is Germany's second-largest metropolis and its largest port. Elegant and cosmopolitan, Hamburg is a city of grand office buildings, magnificent promenades, international musicals, spacious parks, extravagant shopping malls - and, of course, the "naughty-but-nice" Reeperbahn district. Your sightseeing tour, including various brief photo stops, begins at the splendid late 19th-century City Hall, followed by Germany's oldest stock exchange, and then takes you to the beautiful red-brick architecture of the Speicherstadt, Hamburg's historical warehouse district. The elegant Jungfernstieg shopping area is next and, time permitting, the exclusive Außenalster area. On your way, finally, to the world-famous Reeperbahn district, you will also pass by the St. Pauli Landungsbrücken, the old jetties where sailing vessels used to moor in the past. Please note: If you do not embark/disembark in Hamburg and wish to take part, please select code HAM05T; if you disembark, have flights after 14:00 hrs and wish to take part, please select HAM05D. The tour ends at the airport only for disembarking guests; in this case, the tour duration also includes the time to reach the airport.

HAM17T - A VISIT TO NEUENGAMME CONCENTRATION CAMP

CULTUUR EN GESCHIEDENIS

Although today a large, modern, cosmopolitan city and the second largest in Germany, Hamburg has had a dark past during the Nazi regime. This tour starts with a short sightseeing tour of Hamburg with a 30-minute at the Town Hall to take photos. Afterwards, the coach will head south-east to reach the Neuengamme concentration camp and discover one of the darkest periods in German history. For centuries, the city's history has been intertwined with that of the Jewish community, which began to settle in Hamburg at the beginning of the 17th century; from then on, the city was enriched with numerous synagogues. This bond lasted until November 1938 when many synagogues were destroyed, and thousands of Jews were deported to lose their lives in concentration camps during the years of Hitler's regime. Located southeast of Hamburg, Neuengamme was the largest concentration camp in north-west Germany from 1938 to 1945. More than 100.000 people from all over Europe were imprisoned in the main camp and over 85 satellite camps; of these, at least 42.900 lost their lives in the main camp of Neuengamme, its satellite camps and during the evacuation at the end of the war. Once you arrive at the camp, a specialised guide will show you the old structure and provide you with some information on how life in the camp was. The tour also includes a visual exhibition with pictures and films about life in the camp. At the end of this very moving experience, you will return to Hamburg and the ship. Please note: This excursion is only for guests who do not embark/disembark in Hamburg. Guides available in German and English only.

HON06 - PHOTO SAFARI ON MAGERØY ISLAND

**WONDERLIJKE
NATUUR**

Grab your camera, steady your hand, and get set to flex your photographic muscle on an entertaining snapshot safari of Magerøya Island, whose name derives from the Sami word for steep and barren coast, Máhkarávju. Home to a handful of small fishing villages in addition to the capital of Honningsvåg, Magerøya's main economic drivers are fishing and, due to its uniquely wild landscape, tourism. Your guide - that has a keen interest in photography - will remain on hand throughout to show you great photo opportunities on the tour, which begins with a drive up to a fishing village for a chance to take some snapshots of the North Cape plateau from afar. The exact route then taken, and the places visited will depend on the weather, but there are likely to be opportunities to capture stunning vistas of the midnight sun and perhaps even spot reindeer and eagles, although no guarantees can be given for wildlife sightings. Your photographic exploration of Magerøya Island then draws to a scenic close with your return drive to Honningsvåg and your ship. Please note: information only in English. This tour may have multiple departures throughout the ship's time in port. You will receive all information about your specific departure the day before the excursion.

Thrill-seekers take note: spend a few hours exploring the captivating hinterland of Honningsvåg in a two-person ATV. Best of all, you can take the wheel yourself - or take turns with your companion. After leaving the ship, a 5-minute walk will first see you reach the ATV station for a short safety briefing and to be issued with your vehicle. You will then be good to go, travel through town and then take the gravel track up Honningsvåg fjellet, also called NATO Mountain due to a military base at the top. Information on Magerøya Island's unique landscape, flora and fauna will be provided at several stops along the way, while also providing a chance to savour the incredible tundra landscape. A break then follows in Sarnes, where you will leave your vehicle for coffee in a traditional Sami tent, called a lavvo. Join the locals in making yourself comfortable on reindeer skins covering the ground and watch while the coffee brews over an open fire in time-honoured fashion. After saying farewell to your Sami hosts, you will begin your return drive to Honningsvåg and your ship. Please note: as drivers are not included in the tour, guests shall drive the ATV themselves, for which an international driving licence is compulsory. Each ATV can accommodate a maximum of 2 guests, incl. the driver. This tour involves driving through a 4-km tunnel and is unsuitable for guests with heart problems, limited physical abilities or who are claustrophobic. Information only in English. Minimum age to take part in this tour: 12 years old. This tour may have multiple departures throughout the ship's time in port. MLD10 - MOLDE CITY WALK & THE ROYAL BIRCH

STADSRONDLEIDING

Protected against northerly and westerly winds, Molde lies at the foot of the hills, facing a fjord, which opens on to a magnificent panorama of 87 snow capped mountain peaks. Molde is called the "Town of Roses" because numerous plants, which really belong to far warmer climates, grow here on sunny slopes. From mid-June onwards and throughout August, Molde abounds in fragrant, blooming roses. Along the main street Storgata there is a beautiful avenue of Paul's Scarlet Hawthorns, and several roses have been planted by the shops. At the Town Hall Square in the "Town of Roses" stands the bronze statue "Rosepiken", surrounded by a dancing fountain, a sculpture of a young and beautiful Rose Maiden with her arms full of roses. From the street Olsmedbakken and towards the Moldegård villa, many of the old wooden houses have been restored and decorated with roses. You will continue to the Royal Birch, the place where King Haakon and Crown Prince Olav sought shelter from German bombers in April 1940 when they were being hunted by the German occupying forces. The Peace Grove next to the Royal Birch symbolizes the continuing struggle for freedom, peace, and human dignity both today and in the future. Please note: Guests of limited mobility are requested to evaluate their personal level of stamina and ability before taking part as it includes a slight walk uphill to reach the Royal Birch.

This comprehensive tour will introduce Bergen, a lovely city that nestles between the sea and the mountains. Having reached its commercial peak in 1100 through a profitable trade of dried cod, Bergen continued to flourish as the main trade centre in Norway. Its historic past can be seen at the German pier and in Bryggen, a traditional area with fine examples of hanseatic buildings and gabled wooden houses. The unglamorous days of the cod trade have been left behind, as today this area has been reincarnated as a fashionable hub, with trendy restaurants, tasteful souvenir shops and inviting pubs. However, one can still stroll through this historic district and gain a sense of what it was like to live here during the Middle Ages. Next up is a chance to savour the sights during a 1-hour coach ride through Bergen and the verdant Norwegian countryside en route to Lyse Island to board a ferry. Some time to decompress during the relaxing boat trip then follows, during which you can delight in gorgeous views of the so-called small Lysefjord (not to be confused with the namesake-fjord close to Stavanger) and the Bergen archipelago on your way back to the city. On this scenic cruise, you can view Bergen from a different perspective and fully experience the delights of this attractive town and its idyllic setting. Please note: the order of the visits may vary; some groups will start the itinerary by boat and return to the pier by bus. This tour is unsuitable for guests with walking difficulties. This tour may have multiple departures throughout the ship's time in port. You will receive all information about your specific departure the day before the excursion.

BER22 - BERGEN CITY WALK
STADSRONDLEIDING

Bergen was founded in 1070 A.D. During the 12th- and 13th-centuries, when the Kingdom of Norway was at the peak of its power and there was lively communication between the mother country and the Norwegian colonies in the islands to the West, Bergen was the Capital of Norway. The Norwegian Kings resided here, and many historical events took place in this busy port, which in those days had no less than 27 churches and abbeys. Bergen owed wealth and prominence to the fish export trade mainly dried fish, which was one of the most important products in the Middle Ages. The town grew to become the largest in Norway. Today, Bergen is the second largest city next to Oslo, the present capital. Your tour will leave the pier on foot and will pass historic and scenic sights like medieval King Haakon's Hall, the Rosenkrantz Tower, the picturesque old, wooden buildings at the UNESCO World Heritage "Bryggen" - the Hanseatic Quarter of Bergen, the Fish Market and the peninsula of Nordnes with its typical 19th-century white painted wooden houses. There will be time for a photo stop at Nordnes with view to the Inner Harbour at Bergen Centre. Please note: this tour is unsuitable for guests with walking difficulties.

En route to the Nordnes peninsula where it is located, you'll drive through both old and new parts of Bergen, passing the medieval King Haakon's Hall and the Rosenkrantz Tower as well as the picturesque old wooden buildings at "Bryggen", the Hanseatic quarter. Your guide will give you plenty of information about the aquarium before you visit it independently. Have fun spotting the local marine life as well as seals and penguins outside and looking for crocodiles, snakes, and turtles in the tropical section. Depending on where the ship is docked, your return to the port may be on foot (20 minutes) or by shuttle bus.
